VERY large traffic exists between the A Firmits Settlements, Belgon and Southern Ports of China, for which the present lines of Steam communication afford very inadequate accommodation, and this company has been organized with the view of supplying a need which has long been felt, especially by the Chinese Residents of the places indicated. It is proposed to ran a fortnightly line of Steamers between Hongkong, Saigon, and Singapore, in connection at Singapore with the steamers of the P. & O. S. N. Company, and very advantageous arrangements have been concluded with the French Authorities of Co-

shortly contemplated. Arrangements have also been made with the various lines of Coast Steamers for all the ports of China and Japan, for reciprocity in the carriage of freights and passengers, so that a roinous and useless competition may be avoided. The Orlog, with the good will of her Owners, has been purchased, and is now running. Another large and powerful steamer will shortly

be placed on the route. The Company has been registered with Timited Liability, under the Companies Ordiunnee of 1865.
